A member of the Blocking Committee will work with the Crew Planning Department on the appeals. The Blocking Committee Member will be blocked for one (1) day in order to attend the appeals process.
- 9.1.9 Once the appeal process is complete, the Block Awards are considered final.
- 9.1.10 In the event a CCM cannot hold a bid preference due to planning and scheduling limitations or requirements, the bid may be imposed on the first available CCM who is more senior and whose Block Award can satisfy the bid.

- 9.1.11 For planning purposes, a one (1) hour buffer will be added to the Minimum Crew Rest between pairings.
- 9.1.12 In the planning stage, all schedules will be built in accordance with the flight duty time limitations for pilots. These regulations will be posted on Sunwing Operational Website.

## 9.2 Report Time

### 9.2.1 Minimum Report Time prior to departure is as follows:

1. One hour and thirty minutes (1:30) at Sunwing Cabin Crew bases with an off airport Crew Room location;
2. One hour (1:00) at Sunwing Cabin Crew bases with an airport Crew Room location;
3. One hour (1:00) at all layover stations
4. Fifteen minutes (00:15) for ground transportation

9.2.2 When a CCM is away from his base and is operating with a crew from that base, his Report Time will be the same as the Report Time of the crew operating from their Home Base.

## 9.3 Notification of Unexpected Delay

9.3.1 In the case of a delay that becomes known before Report Time, the Company will telephone the contact number(s) provided by the CCMs as they appear in the scheduling system. CCMs are responsible for ensuring the contact number(s) listed in the system is current and accurate.

9.3.2 When the Crew Scheduler contacts the CCM at his contact number, he will re-set the Report Time due to the delay. This call should be made by Crew Scheduling a minimum of one hour and fifteen minutes (01:15) prior to the originally scheduled Report Time. If the call is made within one hour and fifteen minutes (01:15) of the scheduled Report Time and the CCM has left his rest facility, his Duty Day will start at the originally scheduled Report Time.

9.3.3 If a CCM is leaving his rest facility prior to one hour and fifteen minutes (01:15) prior to Report Time, he may call Crew Scheduling to inquire about the status of the flight. If the CCM leaves his rest facility prior to one hour and fifteen minutes (1:15) without making contact with Crew Scheduling regarding the flight status, the CCM's Report Time will begin at the re-set Report Time.

9.3.4 Contacting a CCM within these time constraints will not be considered a disruption to Crew Rest.

#### 9.4 Delayed Report Time – Away from Base

- 9.4.1 If the delay becomes known during the rest period, Crew Scheduling shall first contact the Captain to inform him of any delay that is deemed by the Company to have an effect on the Duty Period. Crew Scheduling or the Captain shall then contact CCMs to inform them of the delay.
- 9.4.2 Crew Scheduling or the Captain shall contact the CCMs to inform them of any delay no earlier than one hour and fifteen minutes (1:15) prior to Report Time and no later than one hour (1:00) prior to scheduled Report Time. Such contact shall be by direct phone call.
- 9.4.3 Contacting a CCM within these time constraints will not be considered a disruption to Crew Rest.
- 9.4.4 If a CCM is leaving his rest facility between one hour and fifteen minutes (1:15) and one hour (1:00) prior to scheduled Report Time, he may call Crew Scheduling to inquire about the status of the flight. If the CCM leaves his rest facility between one hour and fifteen minutes (1:15) and one hour (1:00) prior to Report Time without making contact with Crew Scheduling regarding flight status, the CCM's Report Time will begin at the re-set Report Time.

#### 9.5 Creeping Delay

If a CCM has not left his Rest Facility and is notified of a delay which is in excess of three (3) hours, his Report Time will be considered to start from three (3) hours after his original Report Time.

#### 9.6 Duty Period

- 9.6.1 A CCM may be scheduled for the following:
  - a) A Duty Period of 14 hours
  - b) A Duty Period of 15 hours with an augmented Flight Deck
  - c) Up to 17 hours when the Duty Period includes deadheading before or after the Flight Duty Period.
  - d) Up to 17 hours when a CSM operates a Duty Period which includes a Positioning flight.

Note: No Duty Period will be planned to exceed (a) and (b) above with regards to operating with passengers onboard. In reference to (d), premiums outline in Article 15.7 will apply, if applicable.

9.6.2 When a CCMs Duty Day includes a deadhead at the end of the Duty Day, and by taking the deadhead transportation he is exceeding seventeen (17) hours, the CCM will have the option of being removed from the deadhead flight subject to the following terms:

- In order to be removed the CCM must notify Crew Scheduling prior to taking the deadhead sector. Notification to the designated in charge (PIC or CSM) and Crew Scheduling is required to ensure that they can make the appropriate arrangements for Customs clearance at the intermediate stop and alternate accommodation and flight bookings, as required.
- When contacting Crew Scheduling, the CSM (or PIC) will survey the CCM in order to inform Crew Scheduling which CCMs, if any, want to continue with the deadhead and which CCMs are requesting to be removed from the deadhead sector.
- If the Company is unable to secure accommodations, or is unable to have Customs agents available to clear CCMs, the CCMs will be expected to continue on their deadhead.

**9.7 Extension to Scheduled Duty Period**

- 9.7.1 The Duty Period maximum limitations (at Home Base or away from Home Base) may be extended after the CCM leaves his rest facility to a maximum of three (3) hours. Premiums in Article 15.7 will apply.
- 9.7.2 When the operating portion of the Duty Period is projected to exceed seventeen (17) hours or eighteen (18) hours in an augmented operation, the Cabin Crew will either be replaced or the Cabin Crew will be required to take Crew Rest.

**9.8 Premiums for Extended and Augmented Flights are outlined in the Compensation Section 15.7.2.****9.9 Split Flight Duty Period**

- 9.9.1 Flight duty time can be extended up to one-half (1/2) the length of the rest period to a maximum of three (3) hours if:
- The CCM has advance notice of the split flight duty time, and ;
  - The CCM receives a rest period of at least four (4) hours in suitable accommodation, and;

- 9.10.1 When a CCM's pairing is removed or reduced, Crew Scheduling will:
1. Reassign the CCM to another flight(s), or;
  2. Place the CCM on Reserve , or;
  3. Release the CCM

- 9.10.2 When re-assigning the CCM to Reserve, Crew Scheduling will assign either A.M. or P.M. Reserve in accordance with the original Report Time of the pairing that he was removed from. In order to differentiate a CCM who is a “Re-assignable Reserve”, he will be coded accordingly and will be staffed to flights following the staffing order in Article 9.20.
- 9.10.3 A CCM who loses a flight due to a (1) an assignment on GDO or (2) an unforeseen delay which extends a Duty Day beyond 14 hours and results in an awarded pairing being removed, he will receive credit protection for the pairing in which he was not legal to operate. In these two cases, the CCM will either be re-assigned to another flight(s), if available, or will be placed on Reserve. When re-assigned to this Reserve Duty, he will be placed on either A.M. or P.M. Reserve (which may have an adjusted start time based on legalities) based on the Report Time of his originally scheduled flight. If a CCM is at or above MMG and does not want to be re-assigned to Reserve Duty, he may request to be released from Reserve, however, in doing so he will forfeit the credit protection for this pairing.
- 9.10.4 It is further understood that those CCMs who have lost flight(s) due to the two reasons listed in this article and are credit protected will be coded as “Re-assignable Protected Reserves” and will be assigned prior to those on regular Reserve Duty or Re-assignable Reserve.
- 9.10.5 If re-assigned from a multi-day pairing, the CCM will be considered re-assignable on each of the days of the originally scheduled pairing.
- 9.10.6 If a CCM reports for duty and the flight is cancelled or does not become airborne and returns to gate, he will be awarded a “Show-No-Go” credit of four (4) hours. In a “Show-No-Go” situation, reassignment opportunities to other flights will be offered in order of Seniority. If no CCM accepts the offered flights, the Company will assign in reverse order of seniority.
- 9.10.7 If a flight becomes airborne and returns to its departure station for technical reasons, and if the crew is subsequently released from duty, the crew will receive the original credit for the Flight Duty Period.
- 9.10.8 If a Duty Day changes after the CCM has reported for duty, the CCM will receive the greater of the flight credits he was scheduled to operate or the credits for the actual Duty Period.
- 9.10.9 On the day of operation, if Crew Scheduling moves a CCM from one flight to another in order to protect the operation, the CCM will receive the greater of the originally scheduled flight credit or the newly scheduled flight credit on his Block.

9.11 Checking Out

- 9.11.1 All CCMs are required to check out with Crew Scheduling after a Duty Period which terminates at Home Base.
- 9.11.2 CCMs should check out via e-crew either from their own personal computing device, or from a Crew Room computer.
- 9.11.3 If a CCM is unable to check-out out via e-crew, he must call Crew Scheduling and check out over the phone.

## 9.12 Minimum Rest Period

### 9.12.1 The Minimum Rest Period will be:

- Eleven hours and fifteen minutes (11:15) at Home Base or Away from Home Base prior to the next scheduled Report Time.
- A CCM who operates a red eye flight will not be scheduled for a Report Time before noon (local) of the following calendar day. This limitation may be waived at check-out if the CCM elects to keep their next assigned flight.

9.12.2 Regardless of the above, the Company shall provide a period of time where a CCM is free from all duty and is provided with an opportunity to obtain eight (8) consecutive hours of sleep in suitable accommodation, which is uninterrupted by the Company, plus travel time to and from the rest facility provided by the Company and time for personal hygiene and meals. A CCM is required to travel non-stop to the rest facility immediately at the end of the Duty Period and check-in immediately upon arrival. Total time allotted shall not be less than ten (10) hours from the time the entire crew is checked into the hotel with room key in hand until the pick-up time at the rest facility. The responsibility for ensuring that the Crew receives ten (10) hours lies solely with the CCMs.

9.12.3 CCMs will not operate more than three (3) planned consecutive red-eye flights. This limitation excludes delay situations or unforeseen circumstances.

9.12.4 Following three (3) consecutive flight duty periods that exceed twelve (12) hours each and separated by less than twenty-four (24) hours, a CCM will receive twenty-four (24) hours of rest.

9.12.5 A CCM will receive a period of at least thirty-six (36) consecutive hours within each seven (7) consecutive days or one period of at least three (3) consecutive calendar days within each seventeen (17) consecutive days.

9.12.6 A CCM may, on one occasion in a Block Month, waive a 3:17 violation on their Block

9.12.7 When a Flight Duty Period exceeds fourteen (14) hours, the Minimum Rest Period shall be increased by the amount at least equal to the extension of the Duty Day.

For example: If a CCM's Flight Duty Period is scheduled for fourteen (14) hours, and is then extended by two (2) hours, his Minimum Crew Rest will be increased to thirteen (13) hours and fifteen (15) minutes.

**9.13 Waiving Crew Rest at Home Base**

- 9.13.1 A CCM may, at his request waive his minimum Crew Rest at Home Base up to two (2) hours in order to protect the next pairing on his schedule. In order for this request to be granted the CCM must advise Crew Scheduling in advance of the departure of the flight that will impact his Minimum Crew Rest.
- 9.13.2 At the Company's request a CCM may waive his Minimum Crew Rest at Home Base by up to two (2) hours. He is under no obligation to do so.

**9.14 Deadheading**

- 9.14.1 A CCM shall not be planned to deadhead in the flight deck, however, he may be required to do so in unusual circumstances. Where there are repeated requirements for deadheading in the flight deck, the Company and the Union will discuss it with a view to minimizing such future requirements.
- 9.14.2 If positioning on a carrier that permits pre-booking of seats and the flight time is greater than two (2) hours per sector, the Company shall book window or aisle seats.
- 9.14.3 The Company will provide all CCMs with suitable transportation to and from a rest facility, in a timely manner.

Example: Crew arrive curbside for pick-up and the transportation is more than twenty (20) minutes arriving, Crew Scheduling will be notified and immediate alternate transportation will be arranged either by the Captain or Crew Scheduling and will be paid for by the Company or the hotel upon authorization from the Duty Manager.

9.14.4 Transportation by Air

- a) When deadheading via commercial means, the Company will use their best efforts to book CCMs on flights not to exceed more than one stop.
- b) When deadheading on Sunwing operated aircraft:
  - A CCM deadheading in the passenger cabin of a Sunwing aircraft will be restricted to reclining seats, when available.
  - When seats are available, CCMs may be assigned a full row of seats. The CCM must present themselves in a professional manner while occupying the row of seats.

9.14.5 Deadhead by Ground Transportation

- a) When deadheading using ground transportation, the Company will provide safe, comfortable transportation in a vehicle that is suitable for the length of the trip, road conditions and the number of people being transported.
- b) Transportation by Bus - The minimum requirement of any bus transportation is:
  - Reclining seats with headrest (trips over one (1) hour)

- f) Deadheading duration by ground transportation may be extended beyond four (4) hours with consultation with the Union if there are no other reasonable means of transportation available.
- g) If the ground transportation time to and from the hotel is planned to exceed one (1) hour, such ground transport shall be considered deadhead time and credit will be applied accordingly.

**9.15 Guaranteed Days Off (GDOs)**

- 9.15.1 Block Holders will be entitled to receive a minimum of eleven (11) GDOs in each month at his assigned Home Base.
- 9.15.2 Every effort will be made to ensure that GDOs are not disrupted. A CCM may be called in for duty on a GDO but have the option to deny.
- 9.15.3 Each Block Month a CCM may bid GDOs using the preferential bidding system.
- 9.15.4 GDOs are granted in order of the Master Seniority subject to availability, classification, language and other qualification requirements.
- 9.15.5 If a CCM operates a flight into a GDO, he will receive two (2) times his rate for the period of time that imposes on the GDO.
- 9.15.6 If a CCM operates more than two (2) hours into his GDO, he will receive the greater of either a minimum of four (4) hours of credit or the actual duty time operated at two (2) times his rate of pay.
- 9.15.7 If the Duty Period prior to a GDO ends after 0001L on the calendar day of the GDO and the day after the GDO includes a Duty Period, the Duty Period will not start prior to 1200L on the day after the GDO. A CCM may elect to waive this restriction if he would like to Open Bid, be assigned through the Availability List or request a Flight Switch.
- 9.15.8 When Crew Scheduling is calling a CCM on his GDO for a Grey Day Draft assignment and the CCM is not contactable, the Crew Scheduler must leave a message indicating if they are calling to offer a GDO assignment or if they are calling to draft on a Grey Day. If the Crew Scheduler does not indicate that the draft is for the Grey Day and the CCM returns the call assuming that it is a GDO assignment then he will have the option to decline the assignment as he was not provided the date of the flight. It is understood that when the Crew Scheduler makes his initial phone call to the CCM, if the CCM is contactable the Crew Scheduler is permitted to draft him for a Grey Day assignment.

**9.16 GDO Award**

- 9.16.1 A CCM not awarded the full complement of eleven (11) GDOs on his published schedule must inform Crew Scheduling as soon as possible to advise them of this discrepancy. If Crew Scheduling is unable to assign eleven (11) GDOs in any given month, the CCM shall receive four (4) credit hours at two times his rate of pay for each GDO not awarded. Such credit hours are not counted in hours worked when calculating overtime hours.
- 9.16.2 A Cabin Safety Instructor conducting Initial Training may not be scheduled eleven (11) GDOs in the month due to the scheduling of the classes. In these cases, he will bank days owing which may be assigned within the following six (6) Block Months. It is the expectation that every effort will be made to request the days owing in this timeframe.
- 9.16.3 If a CCM is awarded a GDO and is not at his Home Base due to a scheduling change and not scheduled for duty on the GDO, he will receive four (4) credit hours at double time for the GDO. Such credit hours are not counted in hours worked when calculating overtime hours.

**9.17 Golden GDOs**

- 9.17.1 Each CCM is entitled to four (4) Golden GDOs per calendar year. These Golden GDOs are not in excess of the GDOs in Article 9.14.
- 9.17.2 Once each year, each CCM may reserve two (2) sets of two (2) consecutive GDOs for specific dates. These will be considered his Golden GDOs.
- 9.17.3 A CCM requesting Golden GDOs will do so no later than thirty (30) days prior to the Block Month where he wishes to reserve the dates. The request for these dates will be made via email to Crew Planning. CCMs may only make one request at a time.
- 9.17.4 These Golden GDOs will be awarded on a first come, first serve basis, and should two or more members request the same time, Master Seniority will prevail. The Company reserves the right to limit the number of CCMs free of duty on any given day.
- 9.17.5 No Golden GDOs will be awarded between December 15<sup>th</sup> and January 5<sup>th</sup> of the following year.
- 9.17.6 Once granted, a Golden GDO cannot be altered.
- 9.17.7 Unused Golden GDOs are not subject to carry over.

**9.18 Reserve**

- 9.18.1 A Reserve Period will be eleven (11) hours in duration. Normally AM Reserve shifts will start at 0300 local time and PM Reserve shifts will start at 1200 local time. If there is a requirement for Reserve shifts to start at different times for operational reasons the Company and the Union agree to negotiate different Reserve periods in good faith.
- 9.18.2 A Reserve CCM will be considered on call at all times during his Reserve Period.
- 9.18.3 A Cabin Member who is on Reserve must be contactable at his designated primary telephone number or at one alternate telephone number if provided, that is listed in the scheduling system.
- 9.18.4 It is the CCM's responsibility to return Crew Scheduling's telephone calls immediately. A CCM who cannot be reached at his designated phone number(s) after two calls from the Company, no less than 15 minutes apart, will be considered unavailable for duty. InFlight Management will be advised and his Minimum Monthly Guarantee (MMG) will be reduced by the credit hours of the assigned pairing. A CCM may be subject to other discipline as determined by InFlight Management.
- 9.18.5 When a CCM on Reserve is assigned a duty, he may only be assigned a Report Time which starts during the Reserve period. Crew Scheduling may ask a CCM if he is willing to operate a flight with a Report Time after his Reserve Duty is complete, however, the CCM may decline. If he accepts, then he will be paid for his Reserve Duty in addition to the flight credit.
- 9.18.6 When flights are assigned to a CCM on Reserve, assignments will be issued in order of CCMs with the least amount of credit hours, provided the assignment does not infringe on a GDO. If there are two (2) or more CCMs holding the same number of projected hours, seniority will determine who is assigned the flight. In this case, the most junior will be assigned.
- 9.18.7 It is understood that, in order to protect the operation, CCMs who are on Reserve Duty will not be allowed to bid for Open or Available Flying.
- 9.18.8 Once notified, a CCM will have two (2) hours to report for duty. Crew Scheduling will attempt to contact and assign duty to CCMs on reserve as far in advance as possible and the CCM will attempt to report for duty in less than two (2) hours if required.
- 9.18.9 A CCM is assigned Reserve Duty at his Home Base, however, due to operational requirements he may also be assigned Reserve at a non-Sunwing Base.

**9.19 Reserve Block**

9.19.1 When operationally practical Crew Planning will build Reserve Blocks.

9.19.2 A Reserve Block Holder will be planned to hold six (6) GDOs and five (5) Flex Days. A Flex Day is considered a GDO, however, a pairing may infringe on a Flex Day.

9.19.3 If a pairing infringes on a GDO the CCM will have the option to decline the assignment. If a pairing infringes on Flex Day, the CCM will have the Flex Day replaced in the current Block Month or the following Block Month.

9.19.4 There will be no credit attached to the Reserve shifts on a Reserve Block. The CCM will build credits with each duty assigned.

9.19.5 A CCM holding a Reserve Block will receive an MMG of eighty five (85) hours.

**9.20 Airport Reserve**

9.20.1 The CCM will be assigned a Report Time by Crew Scheduling. His Duty Period will commence at this Report Time and he will be on Reserve for a period not exceeding six (6) hours. If he is assigned a flight it is understood that for the purpose of Duty Day calculations his Report Time for this flight is the actual Report Time for his Airport Reserve shift.

9.20.2 CCMs who hold an Airport Reserve will be paid the greater of:

- A five (5) hour credit or
- The actual flight credits operated or
- Half of the Duty Period

9.20.3 A CCM must be contactable at all times while on Airport Reserve.

9.20.4 A CCM on Airport Reserve must be released by Crew Scheduling.

## 9.21 Staffing Order

9.21.1 When staffing a flight, priority will be given to a CCM who is on re-assignable duty. After all those who are on re-assignable duty are utilized, the Crew Scheduling Department will assess the level of reserve and will determine if a reserve will be used to staff a flight. The Crew Scheduling Department also has the option not to use Reserve CCMs if they want to keep extra staff available for last minute requirements.

9.21.2 Staffing order will then be as follows:

Over ten (10) day period

1. To a CCM on re-assignable duty

Between five (5) and ten (10) day window

1. To a CCM on re-assignable duty
2. To a CCM who falls below MMG on a Grey Day based on lowest to highest hours  
(or CCM on RSV)

Within five (5) day window

1. To a CCM on re-assignable duty
2. To a CCM who falls below MMG in the following order:
  - (i) Open bid in order of seniority
  - (ii) Available flying bid in order of seniority
  - (iii) Grey Day based on lowest to highest hours  
(or CCM on RSV)
3. To a CCM above MMG in the following order:
  - (i) Open bid in order of seniority
  - (ii) Available flying bid in order of seniority
  - (iii) Grey day based on lowest to highest hours  
(or CCM on RSV)
4. On a GDO in order of seniority (or CCM on RSV)
5. On a Vacation Day in order of seniority (or CCM on RSV)

9.21.3 Under exceptional circumstances if there are no CCMs available, qualified Management may be assigned to Cabin Crew Duty in order to protect the Operation.

9.21.4 When utilizing CCMs on a Grey Day, Crew Scheduling must call the CCMs in the prescribed Staffing Order. If, using this order, the CCM is on Reserve Duty when this call is made, he will have the option to decline the Grey Day assignment if his projected hours for the Block Month are at or above the Minimum Monthly Guarantee. If, he is under MMG, then he is obligated to accept the Grey Day assignment unless, by accepting the assignment, this causes Block disruption.

**Note:** The Company and the Union will meet within six (6) months of ratification of this Agreement to provide the Union with the status on the implementation of a system which will be capable of projecting total credit hours in a Block Month which will include any sick time taken.

**Note:** The requirements of a flight(s) will determine the CCM awarded that flight(s). Classification, seniority, and language requirements for the flight(s) must be established by the Crew Scheduling Department and these criteria will factor in the selection of the awarded CCM. In addition, a flight(s) is awarded based on block disruption.

- A CCM within their classification who would experience no block disruption would be awarded before a CCM who would experience block disruption.
- In cases where all CCMs within their classification experience block disruption, priority will be given to the CCM who experiences the least amount of block disruption.
- In cases where there are two CCMs with the same qualification with no block disruption or equal block disruption, seniority will be used to determine the award.

## 9.22 Open Flying Bid

9.22.1 When flights become available after the Block Awards and if there is a window of time available, Crew Scheduling will put these flights out for a bid. This is called an Open Flying Bid.

9.22.2 Bid Process: CCMs will be able to view Open Flights online. Crew Scheduling will award Open Flying five (5) days in advance of the flight date.

For example: If a flight in Open Flying departs on a Friday, it will be staffed on the Monday preceding the flight. On a Tuesday, Crew Scheduling will award flights in Open Flying that depart on the following Saturday, and so on. This will be a daily process to award Open Flying.

## 9.23 Available Flying

9.23.1 When a flight becomes available after the Block Awards and falls within the five (5) day window, i.e. the flight cannot be awarded through Open Flying bid described above, Crew Scheduling will treat this as "Available Flying".

9.23.2 After 0900 (YYZ Time), Crew Scheduling will review each day in the four day window, the Availability List for any CCM who has listed himself as available to be assigned for Available Flying.

9.23.3 Bid Process: A CCM who signs up for Available Flying, is not bidding on a specific flight, he is bidding for one of the following:

- A.M. flights (AM for this bid will be considered 0300-1159)
- P.M. flights (PM for this bid will be considered 1200-0259)
- Turnaround
- Layovers
- Any flight

**9.24 Open and Available Flying Reminders**

- 9.24.1 Once a CCM is assigned a flight through Open or Available Flying, this flight becomes part of his Block.
- 9.24.2 It is the CCM's responsibility to confirm that he has been assigned a flight. If the CCM requests to be removed from the Availability List in advance of being assigned, the Company will remove the CCM.
- 9.24.3 A CCM on Reserve is not permitted to bid for Open Flying.
- 9.24.4 Prior to 1600 (YYZ Time), it is the CCM's responsibility to contact Crew Scheduling or check e-Crew to see if he has been awarded a flight for the following day. If the CCM is assigned after 1600 (YYZ Time), the Crew Scheduler will contact the CCM to inform him of the assignment. If notified after 1600 (YYZ Time), the CCM has the option to decline the assignment.
- 9.24.5 The CCM must follow the published procedures when bidding for Open Flying or Availability. If not followed, the bid will not be considered.

**9.25 Flight Switches / Giveaways**

9.25.1 CCMs may request to switch Pairings, including Reserve and GDOs with other CCMs at the same base (subject to classification, language and other qualification requirements) with at least forty-eight (48) hours notice to Crew Scheduling.

9.25.2 If deadheading on another carrier is involved, seventy-two (72) hours notice is required and approval will be based on the condition that the name can be changed on any deadhead tickets.

9.25.3 Switches and giveaways must be legal in all aspects; minimum crew rest, flight time limitations, etc. Crew Rest cannot be forfeited.

9.25.4 A switch will be approved with the following conditions:

- That both CCMs do not fall below their MMG
- If there is no extra cost charged to the Company for any changes to travel information
- That no additional cost of overtime is absorbed by the Company. Please see example below.

The Company will approve overtime (O/T) to overtime (O/T) switch/giveaway as long as the result does not increase the total number of O/T hours paid by the Company. In order to better understand, here are two examples:

**Example 1:**

- Mary has 108 hours and Bob has 105 hours. This means that Mary has 18 O/T hours and Bob has 15 hours for a total of 33 O/T hours.
- Mary would like to giveaway a Cancun flight with a value of 8 credit hours to Bob. Mary would now have 100 credit hours and Bob would have 113 credit hours. Mary now has 10 O/T hours and Bob will have 23 O/T hours for a total of 33 O/T hours.
- The end result of this giveaway is no additional cost to the Company.
- This giveaway will be approved.

Example 2:

- Mary has 101 hours and Bob has 93 hours. This means that Mary has 11 O/T hours and Bob has 3 O/T hours, for a total of 14 O/T hours.
- Bob would like to give Mary a Cancun flight with a value of 8 credit hours to Mary. This means that Mary would now have 109 hours and Bob will have 85 credits hour. Mary now has 19 O/T hours.
- The end result of this giveaway is an additional cost of 5 credit hours to the Company.
- For this reason, the giveaway will be denied.

9.25.5 It is the responsibility of each CCM involved in a switch to review their block in order to determine if the switch has been approved or disapproved.

9.25.6 Once a switch has been approved it forms part of each CCM's block.

### 15.9 E.I. Reporting Hours

To fulfill the reporting requirements of Section 10.(1) of the Employment Insurance Act Regulation to provide evidence of the hours worked by CCMs for which they have been remunerated.

A simple formula provided in this article is necessary for this task of government reporting because:

- (a) The current Sunwing pay system, which is based on a Minimum Monthly Guarantee (MMG) and associated pay credits, does not make it feasible to report all CCMs hours of work for which there has been remuneration: and
- (b) The current Sunwing pay system is a longstanding compensation structure designed to deal with extremely complex work rules. The existing pay and operational tracking system which are based on industry-wide systems were never intended nor designed to report all hours worked covered by Sunwing's pay system.

As a result, and in order to report insurable hours on EI records of employment for CCMs, the following formula will be used:

All flight credit hours (regardless of the rate of pay) times a factor of 2.0 (e.g. one flight credit paid correspond to two (2) hours worked);

For example:

- 80 hours (guarantee MMG) + 4 hours = 84 hours X factor of 2.0 = 168 hours
- 168 hours, divided by 4.3 (based on a 30 day Block Month); or
- 39 hours 4 minutes per week to be reported as insurable EI hours of each week of that Block Month.

CCMs will be credited 37.5 hours per week when on injury leave or Short Term or Long Term Disability Insurance Program (EI Regulation 12 (1)(a));

CCMs on a full time flight release for Union business, or any ground duties, will also be reported at the sum of their weekly hours multiplied by a factor of 2 per week.

## LETTER OF UNDERSTANDING

### LOU No. 2017 - 01

This Spring TUI – Netherlands is offering the opportunity for CSMs from Canada to operate on the C-Reg aircraft that will be based in Amsterdam. We will have three (3) Canadian registered aircraft based there with flights commencing on April 20<sup>th</sup>, 2017.

This program is projected to run for a period of just over six (6) months. We will run three (3) deployments of approximately ten (10) weeks per term. We are able to deploy eighteen (18) CSMs per term. It is understood that this number may change based on scheduling requirements.

Here are the terms and conditions for this deployment that we have available at this time:

#### Scheduling:

- All CSMs at all bases have the ability to bid on each deployment. Assignment will be awarded in CSM Seniority order. (To be clear, those who are at Seasonal Bases will be eligible for these assignments if/when their base is closed).
- Note that those CSMs who are currently on a “Voluntary Downgrade” under Article 13.6 (from November 1, 2016-October 31, 2017) will only be eligible to hold an assignment if there are still vacancies after all other CSMs have bid and are awarded positions.
- We anticipate the requirement of eighteen (18) CSMs per deployment, however, TUI-NL may adjust if required.
- We anticipate that the first group of deployed CSMs will depart Canada a few days prior to the first scheduled flight which is April 20, 2017.
- CSMs will bid as per normal through the Sunwing bidding system – Amsterdam Base. Rules will be the more restrictive of the EASA regulations and the Sunwing Cabin Crew Collective Agreement.
- Any CSM who is holding scheduled vacation during their awarded term will be required to move that vacation to an available slot during the vacation year. If your vacation is scheduled in this vacation year (i.e. up to April 30, 2017) we will permit you to carry over any vacation time to the next vacation year in order to bid for this assignment.
- TUI-NL will arrange the applicable Service/CSM training prior to the start of the assignment.

- Once work permits are confirmed, the assignments are considered final. For example, if on the first term we were informed that we no longer required all eighteen (18) CSMs, a CSM who is removed cannot request to be placed onto a different term even if their have a higher CSM seniority number.
- If during the term of the deployment we are advised that we need to decrease the number of CSMs on the program, we will first survey the CSMs on the specific term to see if anyone would prefer to be removed prior to removing CSMs in reverse order of seniority.
- Sunwing Airlines will provide transportation to/from Amsterdam.
- Any CSM who should be scheduled for training during the time they are deployed will have their training scheduled prior to departure from Canada.

**Accommodation:**

TUI-NL will be providing hotel accommodation which has the following amenities available:

- Mini fridge in room
- Access to a lounge with microwave
- Laundry facilities
- Shuttle to/from airport

**Compensation:**

- A per diem rate of £85 GBP per day will be paid while on the TUI-NL assignment from actual arrival time in Amsterdam until the date/time of departure. The rate is based on the thirty day average Bank of Canada rate and paid in Canadian dollars.
- The Company will make arrangements for a portion of the per diem to be paid in advance of the CSMs departure.
- Each CSM assigned to this deployment will receive \$75 per month to cover banking fees. A partial calendar month will be pro-rated.
- CSMs on this assignment will be permitted to expense a monthly transit pass. In order to expense, original receipts must be submitted on a Company Expense Form.
- Time worked on this deployment is counted towards a CSMs pay progression.
- Commissions paid for onboard sales will be in accordance with the payments made to TUI-NL crews which is 2% to each CSM (2% of total Euros sold on the flight). Commissions will be converted to Canadian dollars and paid to each CSM only when the six month deployment is complete.

**How to Apply:**

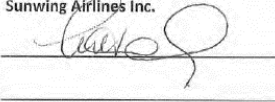

- CSMS interested in this opportunity are asked to submit your interest by sending an email to [mhowley@flysunwing.com](mailto:mhowley@flysunwing.com) no later than 0900 (YYZ time) on February 9<sup>th</sup>, 2017. Applications received after this deadline time/date will not be considered. This posting must close at this time in order for the Company to commence working on all work permits.
- Your bid must state which deployment(s) you are bidding on and in your priority order. Be very clear in your email of your intent. If you are not specific indicating your intent (i.e. which term) then we will assign based on availability and seniority.
